of dividends due to me from the
Birmingham Canal. —

I am

Dear Sir

Yours truly
James Watt

W. Jno. Freeth
Birmm Canal Office

ans^d

London 21 Dec^r 1839

Dear Sir

With a grateful sense of your having promoted the Meeting at Freemasons Hall in 1824, for the erection of a Statue to the Memory of my father; as well as a remembrance of some pleasant hours passed in your Company at our late friend M^r. Rennies, I venture to beg your acceptance of an English Version by M^r Blanchet, of the Eloge pronounced upon my father, as a deceased Foreign Associate of the Academy of Sciences at Paris, by their perpetual Secretary M. Arago. Some farther development is given in the Notes to the early History of the Steam Engine

and

further particulars of my father's
life and Connections are added.

The proceedings of the Meeting
above alluded to, are given in
the Appendix. I leave the
honour to remain

Dear Sir
Yours obliged
James Watt

J. W. Croker Esq

Aston Hall 31 Oct 39

Dear Sir

I have to thank you for your kind letter, and am pleased to find that you approve of the hints to Mr Meadows Translation.

I yesterday made enquiries in Birmingham, as to the Iron Shutters, but could not learn that any had been made there. My informants said, that several had been lately put up in Lombard St., London, & in the Quadrant in Regent St., which they

supposed had been got
up by the London furnishing
Ironmongers. They had not
paid much attention to them
and could not describe
their construction.

I quite agree with you
that such would form
a proper article of
manufacture for this
Iron district, and shall
mention it to any persons
I may meet with, who
are likely to take it
up. I am

Dear Sir

faithfully Yours

James Watt

J W. Cobbett Esq

The Right Hon.
J. W. Croker.

Birmingham
10. Octr 1826.

Recd Octr 14th.

My dear Sir,

The publication al:
:luded to in my letters to you
some months ago, is now
in a state of great forward:
:ness, and ready for in:
:spection. My friend Mr.
Muirhead, who undertook
the Editorship, will be happy
to wait upon you, with a
copy of the sheets, so far
as thrown off, and of the
proofs of the rest, as we
still are anxious to profit
by any observations of so
experienced a critic as
yourself; which I trust
will not occasion you
any

DSI

any inconvenience. Mr. Muirhead must shortly re:
:turn to Edinburgh, for
his professional avocations;
and he will there see that
the volume is speedily
issued. I therefore hope
that it may be in your
power to do us the favor
of naming an early day,
and, if possible, of allow:
:ing us the choice of
two or three, in case of
other engagements inter:
:fering to prevent Mr. M.
availing himself of the
first. I exceedingly regret
that the increasing infir:
:mities of age must now
confine me at home, where
I need not say that I shd
be more happy, if you
could at any time find
leisure and inclination
to visit me.

I Remain,

My dear Sir,

Yours faithfully

James Watt
